GENERAL

**WOUND CARE
INFORMATION**

INSTRUCTIONS FOR WOUND CARE

Bathe the wound with a cotton bud and warm salt water.

To make up salt water mix 1 level teaspoon of salt with a cup of water.

Remove any scab and dried blood.

Pat the area dry with a clean towel or tissue.

Apply a thin smear of Vaseline or prescribed ointment to the wound.

Dressings

Apply a light dressing to the wound if necessary to prevent irritation from clothing.

Recommended dressings are Elastoplast Sensitive or Gauze and tape.
