

Your Medical Record

Information for Patients

The release of medical records to third parties can only be provided with the express consent of the patient concerned. A request via email identifying the patient with date of birth, gender and address matching the patient file will meet the consent requirements.

A patient may have their medical record sent electronically to:-

- a) Their current treating Dermatologist at a new location
- b) A new consultant dermatologist
- c) To the patient

Ensure you include in your requesting email which of the above options best suits you and a valid email address for the file to be sent to.

Please be aware that medical records to be sent via email are not encrypted and therefore are not guaranteed to be secure.

There is a \$30 fee for providing this service. Payment can be made by direct deposit only to the following account using your last name and first initial as a reference.
